Report 20181008A

Type

Subdomain takeover

Description

The domain dev.bitshares.org was pointing to github page which did not exist. Arbitrary content could be placed by using the GitHub cname mechanism.

Review

OWASP Rating	
Likelihood	Low
Impact	Medium
Severity	Low

Possible attack vector: Host random content under an (unused) subdomain of bitshares.org, assuming the trust that is delivered with that.

Reviewers: Peter Conrad, Fabian Schuh

Resolution

Fixed by cleaning up DNS entries.

Reward Consensus

Reward	400 bitUSD
